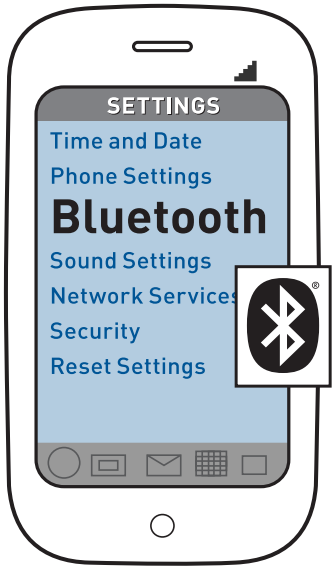
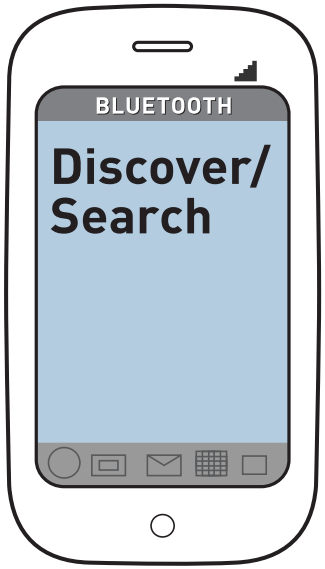
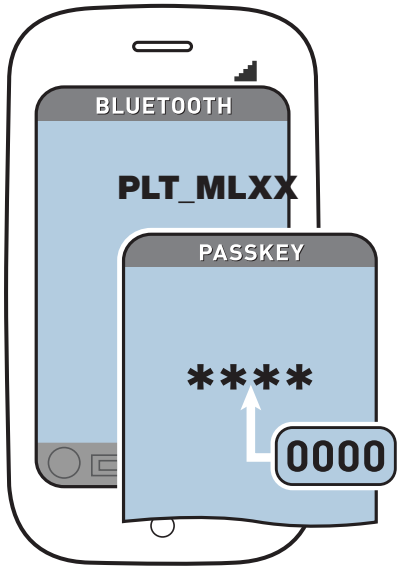
- **Missed call** (purple flashes. Repeats for 5 minutes or until cancelled).
- **Pairing mode** (repeating red/blue flashes)

Be safe! Please read the safety guide before using your new headset.

CONNECT TO YOUR PHONE







"Pairing" is the set-up process of introducing your headset to your phone.

Before using your headset for the first time, you must pair it with your Bluetooth-enabled phone.

Pairing is a one-time process unless your phone loses the connection or you want to pair a new phone.

1. READY

Activate the Bluetooth feature on your phone, then get phone to add / search / discover new Bluetooth devices.

Phones Have Different Menus to Select From:

iPhone: Settings > General > Bluetooth > On (starts the search for devices)

BlackBerry® smartphone: Settings/options > Bluetooth: On > Search for devices

VIDEO TUTORIAL FOR USA:
www.plantronics.com/pairing

2. SET

First Time, Right out of the Box:

With headset turned off, activate Bluetooth pairing mode by sliding Power switch on. The LED flashes red/blue to indicate pairing mode.

Pairing New Phone/Reconnecting Original:

With headset turned off, slide Power switch on. Press and hold the Call button until the LED flashes red/blue.

3. CONNECT

Select "PLT_MLXX" from the list of Bluetooth devices shown on your phone.

If phone asks for a passcode, enter four zeros (0000). You may see **** on screen. Some phones also ask to confirm headset connection after pairing.

Headset LED will stop flashing red/blue once successfully paired/connected.

You can now make a call using your phone's keypad or voice-dialing feature.

TIPS

Understand the Tones You Hear:

This headset beeps different tones to advise you on what it is doing.

Usually, a high tone requires you to act (e.g. you lost the Bluetooth connection or need to recharge battery) but a low tone is just a reaction to you pressing a button (e.g. volume changes, call start/end).

Stay Near Your Phone:

Bluetooth has a working “range” of up to 30 feet between the phone and headset before audio degrades and the connection is lost.

Know How to Reconnect:

Your headset tries to reconnect a lost connection. If it can’t, then tap the Call button once or manually reconnect via the phone’s Bluetooth device menu.

SPECIFICATIONS

Talk Time	Up to 7 hours
Standby Time	Up to 8 days
Operating Distance (Range)	Up to 33 feet (10 meters), Class II
Headset Weight	11.5 grams
Charge Connector	Micro USB charging
Battery Type	Rechargeable non-replaceable lithium ion polymer
Charge Time (Maximum)	90 minutes for full
Power Requirements	5V DC – 180mA
Bluetooth Version	Bluetooth v2.0
